

# array of talks: talks [3]

UCSB COMPUTER SCIENCE  
DEPARTMENT PRESENTS:

**Dennis Shasha**

## Frustration to Innovation

What drives inventions in computing? The talk will discuss the work of several inventors in computing and engineering, their inventions, and how they came up with them and how they plan to come up with more in the future. The ensuing discussion will address the fundamental nature of invention in a world partly populated by intelligent machines.

**Monday, April 9**  
**3:30 - 5:00 PM**

**Corwin Pavillion**

**Free Pizza  
& Prizes!**
